## THINKING OF SPRING PROJECTS?

This warm, almost snowless winter has our thoughts turning to spring. Are you considering adding a new shed? A new deck? Replacing your siding or windows? Please contact Carol at the CV office for information packets and help navigating through the Mounds View building permit process. If you are planning to paint your home this year, please bring a sample of the color up to the CV office.

The warm weather also helps us get a jump on maintenance projects around the home. Pick up litter and dog poop (!) in the yard. Small branches and sticks can be broken up and put in your garbage cart. Large limbs can be put in the pile behind the shelter, by the freeway fence. NO grass or leaves may be put up there. Experts recommend waiting to rake until the lawn is completely dry to avoid damaging the turf.

Think Spring!

### From John....

*the Colonial Maintenance Guy!*

Make sure your storm/screen door is closed tightly each time you leave the home. We have seen screen doors torn off at the hinges, closer bars bent, chains ripped off, railings damaged, and even an exterior lamp smashed. Some homes require mobile home doors for replacement. Newer homes can usually accommodate the storm doors sold at Menards or Home Depot. March winds.....
